

ACTUARIAL REPORT AS AT 31 DECEMBER 2022

London Stock Exchange Group Pension Scheme – LCH Section

This report is commissioned by and addressed to the Trustee of the London Stock Exchange Group Pension Scheme (“the Trustee” of “the Scheme”). It summarises the results of a financial update (known as an “actuarial report”) of the LCH Section of the Scheme (“the LCH Section”) as at 31 December 2022. It has been prepared to satisfy the requirements of section 224 of the Pensions Act 2004. An actuarial report must be prepared each year, unless an actuarial valuation takes place in that year.

The most recent actuarial valuation was carried out as at 31 December 2020. At that date, the LCH Section showed a surplus of £1.4 million relative to its technical provisions, equivalent to a funding level of 100%.

If the assumptions agreed as part of the 31 December 2020 actuarial valuation had been borne out in practice then, allowing for the £3 million Employer contribution paid in December 2021, the surplus would have been expected to have increased to £4.4 million at 31 December 2022, equivalent to a funding level of 101% relative to the technical provisions.

My updated calculations show that at 31 December 2022 the actual surplus was approximately £23.3 million, equivalent to a funding level of 115%. The improvement in the LCH Section’s funding position compared to that expected is primarily due to the investment return on the LCH Section’s non-matching assets being higher than assumed.

The asset value of £181.0 million is the (unaudited) market value of the LCH Section’s assets at 31 December 2022. The asset value has decreased by £141.3 million since the valuation date, primarily due to a significant increase in government bond yields, which reduced the value of the LCH Section’s matching assets (which was broadly in line with the reduction in the value of the technical provisions, as intended).

The Trustee should consider the results of this actuarial report bearing in mind their view of the Employer covenant and the LCH Section’s current and future investment strategy.

The advice set out in this report and accompanying documents is covered by and compliant with the following Technical Actuarial Standards (TAS) issued by the Financial Reporting Council: *TAS 100 – Principles for Actuarial Technical Work* and *TAS 300 - Pensions*. It should be read in conjunction with the formal documentation for the 31 December 2020 actuarial valuation, dated March 2022, and the 31 December 2021 actuarial report, dated 15 June 2022.

The approximate results in this report have been calculated using the method and assumptions set out in the statement of funding principles agreed as part of the 31 December 2020 actuarial valuation, dated March 2022, updated to reflect changes in financial market conditions. The figures calculated for this actuarial report are not as accurate as those that would arise from a full actuarial valuation as some approximations have been made and individual membership data has not been used (it is based on the membership data supplied for the 31 December 2020 actuarial valuation). The asset value as at 31 December 2022 was provided by the Trustee's investment consultant.

This report is designed to provide an overview of the financial position of the LCH Section for information purposes only. This report does not contain recommendations in relation to:

- any changes to the method and assumptions,
- the contribution rate or benefit structure,
- the investment strategy or investment advice (including the design of trigger based investment strategy changes).

We cannot guarantee that the report is suitable for use for the above or for any purpose other than that stated. If this report leads to new decisions or potential changes in any of these areas, then you will need to ensure you have taken further appropriate advice.

We will not carry out any additional work in connection with the report without your prior instructions.

The contents of the report are confidential and should not be disclosed, in whole or in part, to any third party without Mercer's prior written consent, other than as required by any law or order of a court or regulatory body.
